

Commercial Laundry Tests

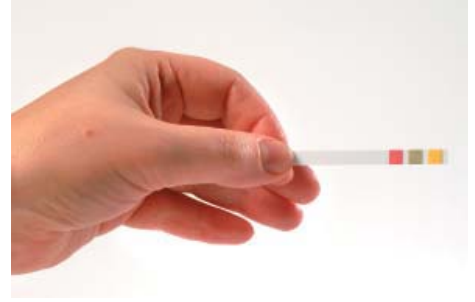

On-site testing of key chemical additives.
Water Testing Made Easy.

ECON Commercial Laundry Test Equipment

A range of test equipment is available for the commercial laundry engineer to enable quick and efficient testing of key chemical additives throughout the wash cycle.

A standard Laundry Test Kit combines a number of individual test packs in one carry case. Alternatively choose a suitable case and add the specific test packs required.

Test Kits for Laundry Applications

ECON Commercial Laundry Kit

A multi-parameter ECON test kit that contains a specific range of tests for the quantification of commercial laundry cleaning products. A pH meter is also included to enable fast and accurate pH measurement, irrespective of water quality. Additional space is available for 3 reagents.

FG-K28800-KW

Ordering Information

FG-K28800-KW: ECON Commercial Laundry Test Kit

Medium black plastic case containing:

- 1 x Pocket pH Meter
- 1 x pH (sour) Test
- 1 x Alkalinity (total-wash and free/total rinse) Test
- 1 x Chlorine Bleach Test
- 1 x Chlorine (concentrate) Test
- 1 x Chlorine Spot Tester (fabric)
- 1 x Hardness Test
- 1 x Hydrogen Peroxide Test Strips
- 1 x Iron Spot Test (fabric)
- 1 x Oxygen (available) Test
- 1 x Starch Iodide Reel
- 1 x Pocket Thermometer (0-100°C)

Test Kit Upgrades

The ECON Commercial Laundry Test Kit also has space for an additional three 65 ml reagents (or 6 pots). Choose from the product table opposite to upgrade your test kits with our range of tests for individual parameters or selection of test strips.

- Large range of test strips available - quick, easy and economical to use.
- High quality equipment and reagents - manufactured under ISO 9001:2000 quality guidelines for repeatable and accurate results.
- Multiple kits can be combined into a single robust plastic case, making on-site testing even more convenient with all your test equipment contained in one fully portable 'mini-laboratory'.
- Long lasting instruction sheets printed on waterproof paper, to withstand spills or splashes.
- Long lasting instruction sheets printed on waterproof paper, to withstand spills or splashes.

Bespoke Test Kits

Test Kit Cases

If the standard ECON Commercial Laundry Test Kit does not meet your exact requirements, choose one of the case options below along with appropriate tests from the product table, to create your own bespoke kit. Robust cases are available in different sizes and configurations that accommodate a number of smaller test kits and equipment. Cases are constructed of rugged ABS plastic, with pre-cut foam inserts to hold all items securely in place. Standard cases contain basic test equipment along with space for a number of reagents or test equipment.

ECON CASE B

ECON CASE A

Case Options

FG-K28233-KW: ECON A Test Kit Case

Small black plastic case containing:

- 1 x Titration Jar
- 1 x Crushing Rod
- 1 x 20ml Syringe
- 1 x Waterproof Instructions

Holds 3 x 65ml Reagents.

FG-K28234-KW: ECON B Test Kit Case

Medium black plastic case containing:

- 1 x ECON Comparator
- 2 x Path Length Adapters
- 2 x Comparator Cells
- 1 x Crushing Rod
- 1 x Instruction Booklet

Holds 4 x 30 ml and 5 x 65 ml reagent bottles (or 10 pots), plus 2 pots and up to 3 disks and 1 ECON test meter.

FG-K28801-KW: ECON F Test Kit Case

Large black plastic case containing:

- 1 x Titration Jar
- 1 x Universal Test Container
- 1 x Crushing Rod
- 1 x 20ml Syringe
- 1 x 1ml Syringe
- 1 x Waterproof Instructions

Holds up to 14 x 65ml reagent bottles (or 28 pots) and 1 ECON Test Meter.

Product Table

Code	Product	Range	Tests per pack	Number of Reagents
AS-K28238-KW	Acidity (Sulphuric acid)	0-0.025%/drop	120	2 x 65 ml
AS-K22303-KW	Alkalinity (Total -Wash)	75ppm/drop	120	2 x 65ml
AS-K22302-KW	Alkalinity (Free/Rinse)	10 ppm/drop	120	2 x 65ml
AS-K22317-KW	Chlorine (Bleach)	10ppm/drop	120	1 x 65 ml, 3 x pots
AS-K22318-KW	Chlorine concentrate	5000ppm/drop	120	1 x 65 ml, 3 x pots
AS-K28239-KW	Chlorine spot tester	Trace	120	1 x 65ml
